

SUMMARY

I am a dedicated and passionate computer engineering student currently pursuing a diploma from Jamia Millia Islamia. With a strong foundation in programming languages such as C, C++, Java, and Python, I have developed the ability to efficiently solve problems and write clean, maintainable code.

I also possess a good understanding of web development technologies like HTML, CSS, JavaScript, and PHP enabling me to create visually appealing and user-friendly web pages.

I am enthusiastic about expanding my knowledge and staying updated with the latest advancements in the field of computer science. I am seeking opportunities to apply my skills and contribute to the development of innovative software.
